CAREER PROFILE

Elijah Claude learned about Year Up via a Google search while he was looking for internship opportunities in the technology field. He felt that this would be a great opportunity because it provides him with valuable work experience in the corporate world that will enable him to attain a great career. Since being here, YU has been a valuable experience for Elijah because it gave him the technical, personal, social, and leadership skills to thrive in the corporate environment. Now he is ready to further cultivate these skills in a real world environment.

About Elijah Claude

PROFESSIONAL SUMMARY:

Innovation is crucial to success. Elijah is a natural innovator. He can quickly learn systems and processes by analyzing them and breaking them down into parts he can understand. Subsequently, he gains a competent understanding of these structures in order to later improve them upon request. In addition, he can create these innovations with creativity, market awareness, and in detail.
